

MARLON VARON

Web Developer fullstack

As a web developer with experience in both front-end and back-end technologies, I have worked for two years in the field, gaining hands-on experience on several projects. At Esinergia, I contributed to the development of the front-end for the Universidad del Rosario project. I currently work at CCXC, a fintech company in Colombia, where I have been since December 2022. Our flagship product is DigiPymes, a web application that drives technological innovation for small and medium-sized businesses in Colombia.

Work Experience

Web Developer, CCXC (December 2022 – Present)

- Develop and maintain the front-end of DigiPymes using HTML, CSS, SASS, Tailwind, JavaScript, and React with Next.js
- Collaborate with the back-end team to ensure seamless integration of the product
- Debug and resolve technical issues

Web Developer, Esinergia (April 2022 – November 2022)

- Contributed to the development of the front-end for the Universidad del Rosario project using HTML, CSS, SASS, JavaScript, and Bootstrap
- Worked on other projects involving front-end development using React, Tailwind, and Material UI
- Debugged and resolved technical issues

Education History

- Platzi Web Development School (Online) – February 2021 to March 2022
- Platzi Master Cohort 10 (Online) – Web Development Bootcamp, March 2022 to August 2022
